Work Experience

Dec 2023 – Present | Web Solutions Developer at Dynamo Bees Limited UK

- Designed and launched over 5 full-stack web sites systems for clients in the non-profit and SME sectors, leading to an improvement in user experience for both visitors and administrators.
- Translated complex client business requirements into detailed technical specifications and system architecture diagrams using UML and ArchiMate frameworks, which reduced development rework.
- Developed high-fidelity, interactive prototypes in Figma, leading to faster client approval cycle and ensuring final deliverables aligned perfectly with stakeholder vision.
- Architected, UI/UX-designed and QA-tested a SaaS platform for a client to ship a complete product in 1.5 months, utilising AI-integrated workflows and acting as an interface between business teams and technical teams.

Oct 2022 – Jan 2023 | Web Designer/Front-end Developer at PTM Group EU Belgium

- Created a modern-looking brand kit and prototype with Adobe XD and Adobe Illustrator for a property management dashboard in less than a month.
- Coded a responsive frontend design in Svelte (HTML/CSS, TS) for the company's property management SaaS software. Collaborated with dev teams under Git/GitHub CI pipeline.

Oct 2020 – Mar 2021 | Business Development Executive IS Global Services Pte. Ltd Singapore

- Designed and built the first iteration of the company's subsidiary WordPress site/CMS, clarified messaging/CTAs resulting in faster sales onboarding.

- Built responsive wireframes/prototypes and refined hierarchy and spacing for clarity with Adobe XD before delivering a Wordpress-based corporate website redesign that made the experience more professional, mobile-friendly, and easier to navigate. and Illustrator prior to the build and deployment.
- Improved brand consistency across pitches and campaigns by building and redefining brand direction (logo, palette, tone) and a shareable brand kit with

Jul 2020 – Sep 2020 | Graphic Design Specialist PT Digital Media APS Indonesia

- Subject matter expert for freelance resource management program: reviewed over 50 portfolios and interviewed 5+ candidates and defined creative standards.
 - Delivered on-brand campaign assets across social, web, and print designed with Adobe Creative Cloud Suite for clients.
